1. The CRLF as a whole should create or retain one job per \$15,000 borrowed.
2. Working capital loans shall be initially limited to thirty percent (30%) of the total Commercial Revolving Loan Fund Program's portfolio
3. A goal of 40% minority participation in the initial CRLF was established at the request of EDA. The City of Columbia will continue to commit to this goal with all loan funds governed by this code. The percentage may be determined by the amount of funds committed.
4. A goal of 35% women-owned businesses participation shall also apply.
5. Loans for start-up businesses shall be limited to thirty percent (30%) of the total Commercial Revolving Loan Fund Program's portfolio

8.18 ECONOMIC DEVELOPMENT ADMINISTRATION (EDA) FUNDS THROUGH THE DEPARTMENT OF COMMERCE

1. Specific EDA RLF Requirements

a. Use of RLF Cash Available for Lending. The City must use RLF Cash Available for Lending for the purpose of making loans that are consistent with an approved Revolving Loan Fund Plan (RLF) or such other purposes approved by the EDA. To ensure that grant funds are used as intended, each loan agreement must clearly state the purpose of each loan. (See 13 C.F.R. § 307.17(a).)

b. Bank Participation. This fund requires bank participation. A letter of credit must be submitted with the loan application.

c. Restriction on Use of RLF Cash Available for Lending. In addition to City of Columbia ineligible uses, RLF Cash Available for Lending shall not be used to:

i. Provide for borrowers' required equity contributions under other Federal Agencies' loan programs;

ii. Enable borrowers to acquire an interest in a business, either through the purchase of stock or through the acquisition of assets, unless sufficient justification is provided in the loan documentation. Sufficient justification may include acquiring a business to save it from imminent closure or to acquire a business to facilitate a significant expansion or increase in investment with a significant increase in jobs. The potential economic benefits must be clearly consistent with the strategic objective of the RLF;

iii. Provide RLF loans to a borrower for the purpose of investing in interest bearing accounts, certificates of deposit or any investments unrelated to the RLF;

iv. Refinance existing debt, unless:

(a) The City sufficiently documents in the loan documentation a "sound economic justification" for the refinancing (e.g. the refinancing will support additional capital investment intended to increase business activities); or

(b) The RLF Cash Available for Lending will finance the purchase of the rights or a prior lien holder during a foreclosure action which is necessary to preclude a significant loss on an RLF loan. RLF funds may be used for this purpose only if there is a high probability of receiving compensation from the sale of assets sufficient to cover an RLF's costs plus a reasonable portion of the outstanding RLF loan within a reasonable timeframe approved by EDA following the date of refinancing.

2. Loan Amount. The maximum loan amount is \$200,000.

3. Private Commitment Requirement for each loan. RLF awards cannot exceed 50% of the total project cost (a minimum of 50% of the total project cost required to be from other non-RLF sources). The RLF loans funded by EDA require a 2 to 1 non-RLF match.

4. Interest Rates. The minimum interest rate the City may charge pursuant to EDA guidelines is four (4) percentage points below the lesser of the current Money Center Prime Interest Rate quoted in the Wall Street Journal or the maximum interest rate allowable under state law. In no event shall the interest rate be less than the lesser of four (4) percentage points or seventy-five percent (75%) of the prime interest rate quoted in the Wall Street Journal.

5. Leveraging of RLF Portfolio. RLF loans must be used to leverage additional investment of at least two dollars for every dollar of such RLF loans. This leveraging requirement applies to the RLF portfolio as a whole rather than to individual loans and is effective for the duration of the

RLF's operation. To be classified as leveraged, additional investment must be made within twelve (12) months prior to approval of an RLF loan, as part of the same business development project, and may include:

- a. capital invested by the borrower or others;
- b. financing from private entities;
- c. the non-guaranteed portion and ninety (90) percent of the guaranteed portions of any Federal loan; or
- d. loans from other state and local lending programs.

Private investments shall not include accrued equity in a borrower's assets.

6. A goal of 40% minority participation in the initial CRLF was established at the request of EDA. The City of Columbia will continue to commit to this goal with all loan funds governed by this code. The percentage may be determined by the amount of funds committed.

8.19 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDS

The City of Columbia may from time to time allocate additional Community Development Block Grant (CDBG) dollars for revolving loan fund use.

1. Specific CDBG requirements

A. Eligible activity: All projects must be an eligible activity per HUD regulations (Title 24 Section 570.201-202). Examples of eligible activities include, but are not limited to: acquisition, code enforcement, commercial rehabilitation, technical assistance, planning, micro-enterprise development, and special economic development.

B. National Objective: All projects must also meet one of HUD's national objectives: (a) benefit to low/moderate income persons, (b) eliminate/prevent slum or blight, or (c) urgent community need. If a project is located within a designated empowerment zone or eligible census tract there is a presumption of meeting the low/moderate income benefit standard.

C. Public Benefit: If a project is designated as special economic development, in addition to being an eligible activity meeting a national objective, it must also meet HUD's public benefit standards.

2. The maximum loan amount shall be \$200,000. The CRLF committee may adjust this limit in keeping with the requirements of the funding source.

3. A minimum equity investment of 10% by the borrower is required.

4. All loan requests of more than \$50,000 require evidence demonstrating that credit is not otherwise available on terms and conditions that permit the completion or successful operation of the activity to be financed.

5. Interest Rate: See Section 8.7(2).

8.20 COLUMBIA ECONOMIC RENAISSANCE FUND (CERF).

1. Specific CERF requirements: This fund is capitalized with general fund dollars. Bank participation is not required; however, it is encouraged.

A. Eligible applicants and uses: Developers, including City of Columbia development corporations and businesses owners are eligible to apply for funding based on the eligible activities listed below:

- i. Developers and development corporations: property acquisition and pre-construction costs.
- ii. Business owners: property acquisition, construction, business expansion, and other activities related to economic development.

- 2. The maximum loan shall be \$200,000 for any one project. However, the CRLF committee may adjust this limit based on available funding.
- 3. A minimum equity investment of 10% by the borrower is required.
- 4. All loan requests of more than \$50,000 require evidence demonstrating that credit is not otherwise available on terms and conditions that permit the completion or successful operation of the activity to be financed.

5. Interest Rate: See Section 8.7(2).

A. Loans may have an interest only component.

6. Development and rehabilitation projects must be complete within two (2) years of closing.

8.21 CONFLICT OF INTEREST

1. Any interested parties, including City officials, OBO employees, commercial revolving loan fund committee members and any other parties that advise, approve, recommend or otherwise participate in business decisions of the commercial revolving loan fund committee, may not receive any direct or indirect financial or personal benefits in connection with the approval and awarding of a loan. These financial interests may include employment, as an employee or through contractual services, stock ownership, a creditor or debtor relationship or prospective employment, with the organization selected or to be selected for an award.

2. An interested party may not use their position for a purpose that constitutes or presents the appearance of personal or organizational conflicts of interest or of personal gain. An appearance of impairment of objectivity could result from an organizational conflict where, because of other

activities or relationships with other persons or entities, a person is unable or potentially unable to render impartial assistance or advice.

3. When a conflict of interest or perceived conflict of interest arises the following safeguards will be implemented to assure that the integrity of the loan award decision is not compromised.

a. Any staff or committee member aware of any conflict of interest, or perceived conflict of interest, has a duty to disclose the conflict to the CRLF chair and/OBO director. Such conflict of interest shall be disclosed in writing and presented to city staff for dissemination to the CRLF and the City Manager.

b. Failure to disclose a conflict of interest can result in removal from the CRLF Committee. Committee members that fail to disclose a conflict of interest resulting in a determination of conflict of interest from the federal funding source and a requirement that the funds be repaid may be liable for any funds awarded under the code that are deemed ineligible or must be returned to any agency as a result of the conflict

c. When a conflict of interest or perceived conflict of interest arises, the commercial revolving loan committee may not loan funds to an interested party.

d. If an interested party has, or has had a business relationship with a CRLF loan applicant within a year of the application, they will not be permitted to participate in the loan application review and must recuse themselves from the decision-making process when the loan is funded with City or CDBG dollars.

e. If the City of Columbia has a financial interest, either directly or indirectly in an applicant's project, any CRLF committee members who are city employees must recuse themselves from the decision-making process to avoid any appearance of organizational conflict of interest.

4. A business in which a city employee has an ownership interest is eligible to apply for commercial revolving loan funds, so long as none of the conflicts of interest above, or designated by federal guidelines, apply.

5. The City and the CRLF committee members must comply with all additional federal conflict of interest provisions that may apply.
